LIT 6934
Digital Writing and Emerging Technologies

Description
This seminar considers the relationship between emerging writing technologies and the ways in which we produce and circulate writing. This course will consider histories of the technology-writing relationship, but will focus primarily on theories and practices of digital writing. Included in these discussions, this course will examine civic writing, public writing, and place-based writing. The course will address the role of mobile technologies in how we understand writing. Likewise, the course will take up the role of multimodal and assemblage writing. The course will also look specifically at Augmented Reality (AR) and Virtual Reality (VR) as emerging writing spaces. Similarly, the course will address digital literacy and digital creativity, as well as the idea of electracy.

**Recommended Texts**

**Assignments**

*Pedagogical*

Each student will design one complete, comprehensive teaching module for an undergraduate writing class. The objective of the assignment is to teach students to produce a multimodal text. Details will be provided in class.

*Disciplinary Research*

This is the “seminar paper.” This assignment is designed to encourage students to produce a publishable-caliber piece of research addressing digital writing, preferably as such conversations inform each student’s specific area of study. For example, students working in literary areas may be better served by focusing on aspects of digital humanities than on writing classrooms.

*Multimodal*

This assignment is designed to encourage students to develop multimodal projects for addition to their digital portfolios. Details will be addressed in class.

*Seminar Discussion Leader*

Each student will lead one day’s seminar discussion about the assigned reading. Choices of readings will be assigned on the second seminar meeting.

*The Trick*

Each student will teach the class one digital “trick” and provide documentation/help for that trick. Details will be addressed in class.

**Grading**

Final grades will be determined using the following values:

| Pedagogical | 30% |
Disciplinary Research 30%
Multimodal 20%
Seminar Discussion Leader 10%
The Trick 10%
